## Build Out Line

The build out line promotes playing the ball out of the back in a less pressured setting

When the goalkeeper has the ball, either during play (from the opponent) or from a goal kick, the opposing team must move behind the build out line until the ball is put into play

Once the opposing team is behind the build out line, the goalkeeper can pass, throw or roll the ball into play (punting is not allowed)

After the ball is put into play by the goalkeeper, the opposing team can cross the build out line and play resumes as normal

## Build Out Line

If a goalkeeper punts the ball, an indirect free kick should be awarded to the opposing team from the spot of the offense

If the punt occurs within the goal area, the indirect free kick should be taken on the goal area line parallel to the goal line at the nearest point to where the infringement occurred

## Build Out Line

The build out line will also be used to denote where offside offenses can be called

Players cannot be penalized for an offside offense between the halfway line and the build out line

Players can be penalized for an offside offense between the build out line and goal line
